Professional Summary

Final-year Computer Science Engineering student (2026) with a strong focus on **Java backend development**, RESTful API design, and database-driven applications. Proficient in Java, SQL, and object-oriented programming with hands-on experience through projects and internships. Seeking an entry-level **Software Developer / Java Developer** role.

Education

Bachelor of Engineering in Computer Science and Engineering Sant Gadge Baba Amravati University	2022 – 2026
HSC State Board Amolakchand Mahavidyalaya, Yavatmal	2022

Soft Skills

Analytical Thinking • Problem Solving • Team Collaboration • Adaptability

Technical Skills

Programming Languages: Java, Python, SQL
Backend Development: Java Backend Fundamentals, REST API Design, Node.js, React.js
Database Technologies: MySQL, Relational Database Design
Tools & Platforms: Git, GitHub, VS Code, Linux Basics
Core Concepts: OOP, MVC Architecture, SDLC, Data Structures

Core Competencies

Java Backend Development • RESTful Web Services • Debugging and Troubleshooting • Database Integration • Secure Coding Awareness

Work Experience

TechSaksham (Microsoft & SAP Initiative) <i>AI & Data Science Intern</i> - Developed modular backend-oriented logic emphasizing clean code structure and SDLC practices. - Applied debugging, data handling, and problem-solving skills transferable to Java backend systems. Cybersecurity Internship <i>Cybersecurity Intern</i> - Analyzed application-level vulnerabilities, strengthening understanding of secure backend development. - Gained exposure to secure coding practices relevant to enterprise Java applications.	Remote 2024 Remote Aug 2024 – Sep 2024
--	---

Projects

- Travel and Tourism Management System** (Java, MySQL): Developed a Java-based backend system for managing travel packages, user bookings, and itinerary details with database integration and modular MVC architecture.
- AI Resume Screening** (Python, NLP): Built a backend-focused application using TF-IDF and cosine similarity to process resumes and automate shortlisting logic.
- Charity Donation System** (Node.js, REST APIs, MySQL): Developed a backend system with authentication, RESTful services, database integration, and dashboard support.
